Politics in this section of the country have about "played out."

Our bells present the appearance of pouter pigeons, in ruffs of dimensions truly Elizabethan.

We hear reports of the army worm having made their appearance in portions of this county.

There will be considerable fruit in this section notwithstanding the late heavy frosts.

A mania "to go-a-fishing" has been on the rampage in our town for two weeks past.

The new belts for ladies have the buckles at the back, with a heavy chataine look at the right side.

James Mangum, of this place, caught a fish in Holston river, last week, that weighed sixty-three pounds.

"Eternal vigilance is the price of liberty," but the price of the Gazette for a whole year is only Two Dollars.

The corn crop in this county was not far enough advanced for the late frost to materially injure it.

Don't let your son learn a trade. Give him a smattering of law or physics, is more respectable and genteel.

Mrs. Nichols, wife of Mr. I. Nichols, proprietor of the hotel of that name at Bristol, dropped dead, on the 24th ult.

Matches, (out of the reach of children,) should be kept in every bedroom. But keep them in a tin safe and closed.

We are requested to suggest that it would be a good idea for our County Court to make a public exhibit of the financial condition of the county.

Morristown has been extremely quiet during the past week. There has been but little bustle, except among the ladies.

John Brown's carriage buggy and spring-wagon factory is one of the institutions of Morristown. If you want a fancy and well put-up vehicle, give Mr. Brown a call.

Hon. Robt. McFarland, Judge of the Supreme Court, who has been absent for some time attending the Court at Jackson, spent a few days at his home in this place last week.

We ask a careful reading from our farmers for the letter of Col. C. W. Charlton, addressed to Mr. C. E. Carriger, President of the Hamblen county Farmers' Club, which appears in another column of this paper.

The Leadvale bridge having been repaired, trains on the "Bancomber" road are making daily trips from Wolf Creek to this place and return, as per schedule at the head of our local column.

That model of art, the Aldine, for May has been received. It is a beautiful number. All who love art should take it. James Sutton & Co., publishers, 58 Maiden Lane New York.

Hon. Wm. Greene, President of the Mulberry Gap and Rogersville Turnpike Company, has a letter in this paper, in answer to a recent communication of Capt. Wright, of Mooresburg, to which we invite attention.

The Rogersville Young American, of last week, says: "Alfred McKinney, colored, was elected Constable last Saturday, for the town district, by a majority of 29 votes over his plain opponent N. T. Beal, late Assistant Assessor of Internal Revenue."

A letter from Mount Horeb, Jefferson county, to the Knoxville Chronicle, says the heavy frost of the morning of the 25th ult., was very destructive to the fruit crop.

On the low lands the leaves, of the forest are even killed by the frost. Much damage was done to the early garden vegetation.

The women are shopping now. Nothing but the top-knot of the average clerk is visible, above the towering counter, except when he goes up for another piece of goods and it is interesting to study the emotions that are at work within by the wrinkles of the scalp. Ah! no one can really understand the mighty thoughts that surge through their brains as they are asked if they "haven't got something a little lighter."

We who have comfortable homes, and kind parents, and bakers' bread, rarely think of this.

Put them to Work.

Crop making time is here, and as we have a good many boys about town—both white and black—who are running about the streets half naked and half starved, without employment, we would suggest to their parents that it would be an excellent idea to hire them out to work on a farm. There they can have plenty to eat, good clothing, and make something besides to help support their parents and the little children at home who are not able to work. All boys should be learned to work, and especially those who have to depend on their labor for a support. An idle boy will grow up to be an idle and worthless man—Idleness begets nearly all the crimes known to our laws. On the contrary, industry makes a country both great and prosperous. Think of this, parents, and put your boys to work. It will be the making of them. We will warrant that the wolf will never be at your door, if you and your boys will use the proper industry.

Sale of the Mossy Creek Zinc Works.

The Mossy Creek Zinc Works, says the Knoxville Chronicle of the 1st inst., were again sold yesterday, by H. M. Aiken, Esq., Clerk of the United States District Court. They brought \$42,722, and were purchased, except a small quantity of personal property, by S. E. Robinson and J. D. Champlin, of New York. This extensive property has been sold before but the sale was not confirmed. The sale yesterday was for about \$30,000 more in the aggregate than the last one.

We understand that the purchasers have made their purchase with a view of operating the zinc works, provided the title is confirmed in them.

Reprehensible Conduct.

On Tuesday night of last week, while the passenger train on the E. T. & G. R. R. was a short distance below town, some mean souled wretch threw a rock through one of the windows, striking a baby on the head, causing a painful wound.

Language is inadequate to express the meanness of such an act and we blush to know that our community hold, such a monster. About ten feet of rope and a tough, springy sapling is the best law for such a wretch.

Another Fine Hack.

Mr. J. M. P. Flynn has just turned out from his carriage and buggy manufactory another fine hack for the Morristown and Tate Spring line of Messrs. Cain, Smith & Mitchell.
